Serial No.: 10/520,260 Amdt dated 1/24/2007 Reply to OA of 10/24/2006

Docket No.: 66722-068-7

REMARKS

By this Amendment claims 6-17 have been canceled and replaced

by new claims 18 and 19, with claim 18 corresponding to claim 16 written

in independent form and claim 19 corresponding to claim 17 written in

independent form. Entry is requested.

In the outstanding Office Action the examiner has withdrawn new

claims 11-17 from consideration because they are allegedly directed to

different species of the invention than prior claims 1-5 (new claims 6-10

correspond with original claims 1-5), and since evaluation of claims 1-5

was previously accomplished, claims 11-17 can be withdrawn as directed

to a "non-elected invention."

The inventors request that this withdrawal of claims 11-17 from

examination be reconsidered and withdrawn, and new claims 18 and 19

entered and examined. In this regard, the inventors do not believe that

the claims are directed to different invention species, but simply define

different preferred features of their invention, and even if species are

present, they believe that after the filing of an RCE they should be given

the opportunity to select which specie they want evaluated.

Serial No.: 10/520,260 Amdt dated 1/24/2007 Reply to OA of 10/24/2006

Docket No.: 66722-068-7

The examiner's prior art rejection of claims 6 and 10 based on Hickox in view of Feldmann and claims 7-9 based on Hickox in view of Feldmann and Gath¹ cannot apply to claims 18 and 19 as none of these patents would suggest using a moulded structural part to make direct contact with a battery in a hearing aid.

Respectfully submitted,

DYKEMA GOSSETT PLLC
